- 以重读闭音节结尾,且词尾只有一个辅音字母时,先双写这个辅音字母,再加-ing(重闭单辅先双写)。例如: running, stopping, preferring。以下单词不双写: open,listen,draw。

Sally has just won a prize in the USA for her popular talk show on TV. Her show is so popular that even people all over the world know her show. Why is her show so popular? It's simple. She cares about people and the world. She usually invites important people to her show to talk about something serious that everyone cares about. And she is not afraid to fight with the important.

One of the famous stories about her is about the "mad cow disease". When Sally knew that the beef businessmen told a lie to people that the cows in the USA were healthy, and didn't have "mad cow disease", she was angry and worried. She didn't want people to get sick. So she told everyone in her show that she decided not to eat beef any more. She knew that people would agree with her and the businessmen would be angry, but she was not afraid. She knew that was the right thing to do.

- Why is her show so popular?
- What does she often talk about in her show?
- Why did she tell everyone everyone in her show that she decided not to eat beef any more?
